## Analytics With Salesforce: Past, Present and Future

**Leeds** School of Business  
UNIVERSITY OF COLORADO **BOULDER**

# Leeds Technology Services

Dave Kohnke  
IT Director

Joanna Iturbe  
CRM Director

# What are we doing with Salesforce at Leeds?

---

# Evolution: Staffing vs. Consulting Support

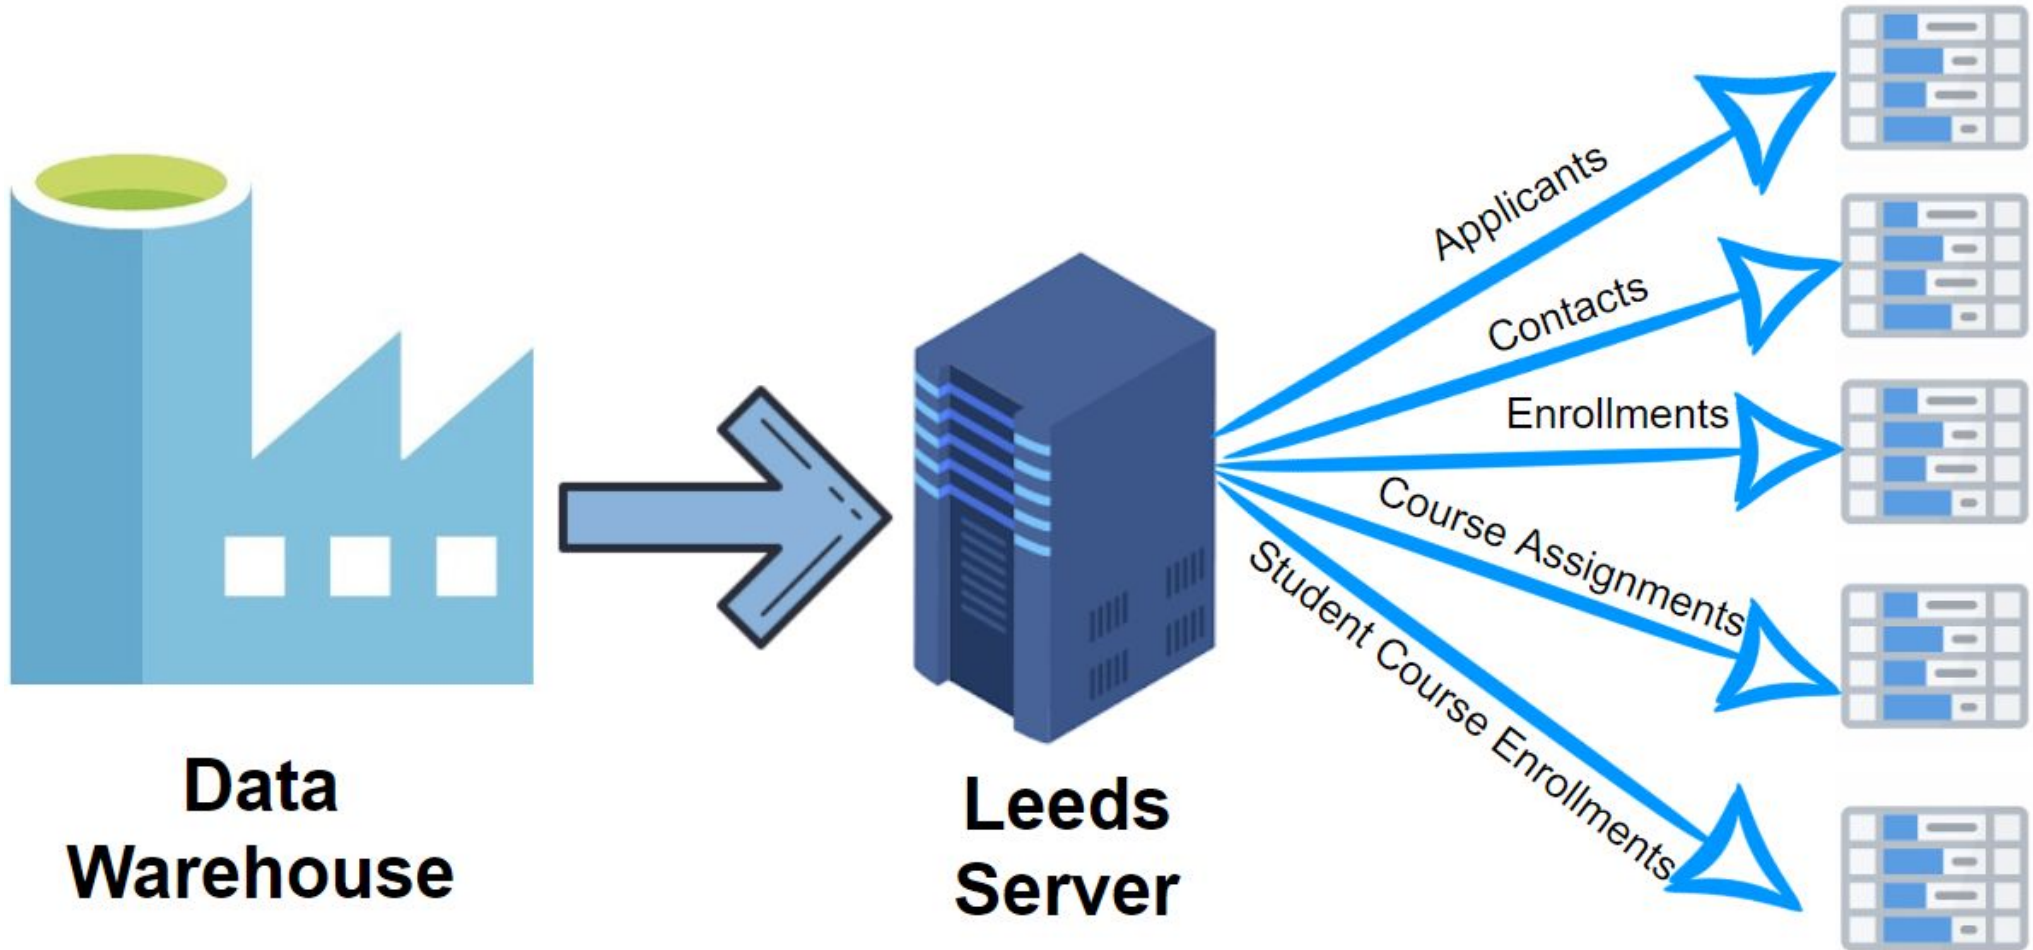

# Quantifying ROI

- BusinessWeek Top 20 for student satisfaction and salaries (30+ spot improvement)
- 11% higher engagement with academic advising
- 800% increase in 1<sup>st</sup> & 2<sup>nd</sup> year career advising appointments
- 73% increase in undergraduate career advising appointments
- 53% increase in 'response rate' for placement
- 99% 'knowledge rate' for placement
- 90+% placement since 2015
- 78% of students have 1+ internship; 89% of internships are paid

# CU-SIS Integration

(Student Information System – Campus Level)

# Data Visualization

## The Power of Dashboards

A dashboard shows data from source reports as visual components or snapshots of key metrics and performance indicators:

- Charts
- Gauges
- Tables
- Metrics

# 2020

## The Future: Einstein Analytics

# Einstein Analytics

## Actionable Insights

Einstein Analytics by Salesforce enables powerful dashboards and predictions that allow users to take immediate actions based on the data they see. It connects the dots between data visualization, insights, and the resulting actions.

- Advanced analytics capabilities
- Utilizes AI technology
- Intuitive, user-friendly, self-service
- “Dashboards on steroids”

An aerial photograph of the University of Colorado Boulder campus. The image shows a mix of historic red-brick buildings, modern academic structures, and a large baseball stadium with a green field and blue seating. The campus is surrounded by lush green trees and rolling hills, with the iconic rocky peaks of the Front Range mountains in the background under a clear blue sky.

# What's Next?

**Leeds** School of Business  
UNIVERSITY OF COLORADO **BOULDER**

# Future Exploration

---

The use cases for artificial intelligence in higher education span a wide range of activities. Additional functionality in the Einstein product suite could help us:

- Proactively reach out to students to provide support
- Deliver hyper-personalized experiences
- Manage repetitive tasks so staff can focus on more important tasks
